Beach Pleaser

is a small business. They are a locally run company and started with a little boutique in San Diego, however they just recently launched their business online as well. Beach Pleaser is a swimwear company that sells all types of swimsuits and little beach accessories, such as sunglasses, hats, and beach towels. They want to be seen as very warm, inviting, and fun. They also want to make people feel good and confident.

Beach Pleaser is able to ship anywhere in the US, so social media marketing allows them to reach all over. Beach Pleaser's swimwear makes customers feel confident and sexy, while also being comfortable and affordable.
